

DOULA KEESHA

As a DONA-trained birth doula, I am a non-medical support person who assists you continuously throughout your pregnancy journey.

ABOUT ME

I was called to birth work. It started with helping family members navigate the Medical Industrial Complex and transformed into full-time soul work which has reshaped the way I see the world. Through collaborative care & by supporting you, I will find answers to your questions, support your choices, & will help you feel the strongest so you can mentally prep for all outcomes.

I believe that being in a community is how we continue to elevate and expand.
